Approved Neuroscience Courses (Outside Psychology) to Count Toward BCN Track

The following courses are approved neuroscience-relevant courses outside of the Psychology Department that can count toward the 36 hours required for the major within the Behavioral and Cognitive Neuroscience specialization. Note that this is list is not exhaustive; students may apply for approval for courses not on this list.

- **Anthropology:**
  - Human Evolutionary Anatomy (ANT 3515)
  - Molecular Genetics of Disease (ANT 4531)
- **Biology/Zoology:**
  - Genetics (PCB 3063)
  - Human Physiology (BSC 3096)
  - Evolution (PCB 4674)
- **Biochemistry and Molecular Biology:**
  - Introduction to Biochemistry and Molecular Biology (BCH 4024)
- **Chemistry:**
  - Organic Chemistry/Biochemistry 1 (CHM 3217)
  - Organic Chemistry/Biochemistry 2 (CHM 3218)
- **Linguistics:**
  - Brain and Language (LIN 4790; F'11)
- **Microbiology and Cell Science:**
  - Basic Biology of Microorganisms (MCB 3020)
  - Eukaryotic Cell Structure (PCB 3134)
- **Speech, Language, and Hearing Sciences:**
  - Neural Basis of Communication (SPA 4104)

How to get approval for courses not on this list
Students can request approval of courses not already listed above. To gain approval, contact the instructor of the course for which you are seeking approval. Ask the instructor to sign the "Approval for Neuroscience-Relevant Courses" form and give you a course syllabus (either a current syllabus or one from a previous semester is acceptable). Instructions are detailed further on the form.
